Honorable Adolf A. Berle, Jr.
Assistant Secretary of State
Department of State
Washington, D. C.

From: J. Edgar Hoover - Director, Federal Bureau of Investigation

Subject:

As of possible interest to you, there is set out hereinafter information concerning two cablegrams, one from the Swiss Legation, Washington, D. C., to the Swiss Minister in Lisbon, Portugal; and one from the Swiss Minister in Lisbon to the Swiss Legation in Washington, D. C. This information came to the attention of this Bureau from a confidential and reliable source.

On August 28, 1942, the Swiss Legation informed the Swiss Minister in Lisbon that in the courier sack being taken to Portugal by the Swiss courier, Watteville, there is an envelope addressed to Watteville which the Legation accepted and placed in the pouch in the belief that it was an official document of the Red Cross. (Watteville is a representative of the International Red Cross). The wire continues that police inquiry was made concerning Watteville before his departure and he admitted that there were letters in his diplomatic pouch for individuals in Europe which he had received from third parties in this country, which letters had nothing to do with Legation or Red Cross matters.

The Swiss Legation in Washington stated in this wire that if this is true, it is a serious abuse of confidence and it was requested that the Swiss Minister in Lisbon seize such letters and send them back to Washington with a courier by the name of Roth. Only through the transmittal of such letters to the Swiss Legation, it was said, can serious reactions against the courier, the Legation and the Red Cross be averted. It was also requested that the Minister in Lisbon attempt to peruse any private letters that Watteville might be carrying in the Consular pouch. The cablegram concluded the FBI was informed in advance of Watteville's attempt to carry letters for third parties which involved important documents discussed in Washington.

By cablegram dated September 3, 1942, the Swiss Minister in Lisbon advised the Swiss Legation in Washington regarding its message (referred to above) that Watteville's letters left September 2, 1942, for Bern, Switzerland, where they would be placed in the next sealed pouch sent to the Legation in Washington, inasmuch as it was not possible to make up a pouch in Lisbon. It was said that the return of the correspondence would undergo some delay because the date of the departure of the next courier for Washington was not known.

Under date of September 11, 1942 the Laboratory received 32 cable messages from the Office of Naval Censorship in New York, in connection with the above-entitled case. These messages were exchanged between the various branches and consular representatives of the Swiss Government.

One of these messages has been decoded, and is being reported on at this time, as it is felt its contents warrant special handling.

This message (#6) was sent to the Swiss Legation in Washington, from Martin, Swiss Minister in Lisbon, on September 3, 1942.

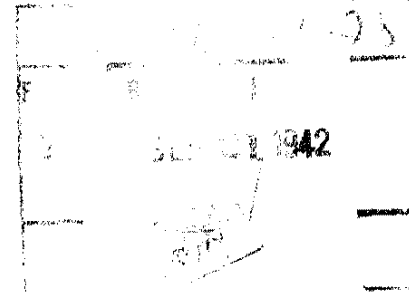

A translation of the decode of this message, which is in French, is being forwarded herewith. The translations of the decodes of the remaining messages received under this date will be forwarded to your office in the near future.

It is recommended that, if distribution of this message is contemplated, only a paraphrase version be sent to the agencies considered in the distribution.

Copies of this cable are being retained in the Laboratory's Code and Cipher file, and any duplicate copies on hand will be forwarded to the Bureau's files at a later date.

Respectfully,

Under dates of September 2 and 4, 1942, there were received in the Laboratory from the Office of Naval Censorship in New York 47 cable messages in connection with the above-entitled case. These messages were exchanged between the various branches and consular representatives of the Swiss government.

Of these 47 messages, 2 have been decoded and are being reported at this time, as it is felt their contents warrant special attention.

The first of these, an unnumbered message, was sent to the Swiss Minister in Lisbon (Martin) from the Swiss Legation in Washington, D. C., on August 28, 1942.

The second message, dated September 1, 1942, was sent to the Swiss Minister in Washington, D. C., (Bruggman) from the Swiss Minister in Lisbon (Martin) in reply to the message mentioned above.

Translations of the decodes of both of these messages are being forwarded herewith. The translations of the decodes of the remaining messages referred to above will be forwarded to your office in the near future.

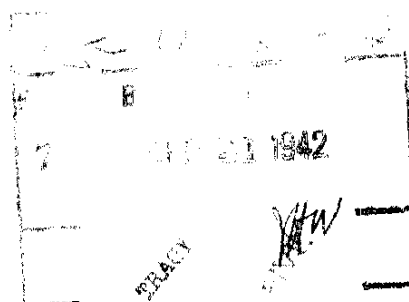

It is recommended that, if distribution of these messages is contemplated, only a paraphrased version of the messages be sent to the agencies considered in the distribution.

Copies of these cables are being retained in the Laboratory's Code and Cipher File, and any duplicate copies on hand will be forwarded to the Bureau's files at a later date.

MEMORANDUM FOR MR. TRACY
Re: Swiss Diplomatic Messages

During the period between August 20 and September 3, 1942 there were received from the Office of Naval Censorship in New York copies of 306 cable messages in connection with the above-entitled case. These messages are exchanged among the various branches and consular representatives of the Swiss Government.

Twenty-four of these messages have been decoded by means of material available in the Technical Laboratory. Translations of the decodes are being forwarded to your office at this time. They are appropriately designated as to destination and source.

One of the cables was sent in plain text. It was sent to the Swiss Legation in Washington, D. C. from SURCOMMERCE on August 9, 1942. A translation of this message is also attached.

It is recommended that if distribution of these messages is contemplated, only a paraphrase version of each message be furnished the agencies considered for such distribution.

Copies of these cables are being retained in the Laboratory's Code and Cipher File and any duplicate copies on hand will be forwarded to the Bureau's files at a later date.

Re: SWISS PATRONS

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 19 to 22, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of Swiss Consular staff in San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code bear our numbers - .

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and retained in confidential files in this office. The attached copy is for the Bureau's information.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage, in supplying various Field Office with investigative material, and possibly in other ways not now apparent.

Re: **SWISS COUNTER ESPIONAGE ACTIVITIES**

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 23 to 27, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of **Swiss Consular representatives in this Field Division.**

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code bear our numbers -- .

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and retained in confidential files in this office. The attached copy is for the Bureau's information.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage, in supplying various Field Office with investigative material, and possibly in other ways not now apparent.

Very truly yours,

MEMORANDUM FOR MR. TRACY

Re: Swiss Diplomatic Messages

During the past several weeks there have been received from the Office of Naval Censorship in connection with the above-entitled case copies of cables exchanged among the various branches and consular representatives of the Swiss Government.

Several of these cables have been decoded and translations are attached hereto. Solutions for these messages have been effected by means of material recently furnished the Technical Laboratory by the New York Field Division. The vast majority of the messages in question were either sent by or received by the Swiss Consul General in New York City. It is believed that the Laboratory is now in a position to decode all material emanating from or destined for the Swiss Consul in New York City. However, the messages handled by the Consulate in New York constitute only a very small percentage of the Swiss Diplomatic Messages which are received in the Laboratory from the Office of Naval Censorship and other sources. We have available conclusive data which indicate that additional code and cipher methods are being utilized by other consular offices. Some of these systems are used rather extensively and until additional information is received no solution can be effected for messages in these systems.

Among the material there are a number of messages transmitted by or sent to Colonel Gossweiler while on board the Swedish exchange ship, the Drottningholm. It appears that Colonel Gossweiler's function was to look after the interests of Swiss Nationals on board this ship in addition to performing other less definitely defined duties. It is to be noted that Colonel Gossweiler had presumably completed this mission, as this function was called officially, prior to the more recent trips of the Drottningholm.

The accompanying messages are appropriately designated, the primary classification being based on the serial number and date of transmission. All of the messages originating in the New York office of the Swiss Consul are grouped together in this report; those destined for it are arranged similarly. Colonel Gossweiler's messages are arranged numerically.

On June 26, 1942, there was received into the cryptographic section of the Technical Laboratory intercept number 39953 from the Portland, Oregon Field Office. It is noted that this intercept is designated as number 395 in that office.

This message contains a transmission in five-letter groups from radio station JNP, operating on a frequency of 13740 kilocycles and located in Tokyo, to station IQA, which is located in Rome. After a thorough examination of this intercept, it was found to contain characteristics of messages which the Laboratory has heretofore been able to decode. However, it is noted that there were variations and mutilations within the code groups in this intercept. No decode was effected. This intercept is currently being studied in the Laboratory and should a decode be obtained, your office will be so advised.

As per their request, a photostatic copy has been transmitted to the Portland Field Office, the original intercept being placed in the Laboratory's code and cipher file.

Respectfully,

E. P. Coffey

Re: SWISS MATTERS

PERSONAL AND CONFIDENTIAL

Dear Sir: Attention: Assistant Director S. J. Tracy

Enclosed are telegraphic messages numbered 17 to-----inclusive, some of which are in plain language and some in code, which are to and/or from the Swiss Consulate at San Francisco.

With regard to those in plain language, it is requested that this office be furnished with two copies on onion skin paper of complete translations and that a separate sheet be used for each message if practicable. It will be noted that they are numbered chronologically. It is requested that the translations be numbered to conform with the message enclosed herewith.

With regard to those in code, it is requested that the Bureau attempt to furnish decodes to this office in the same manner as outlined above with regard to those in plain language. In addition, in the event it is found such messages cannot be decoded, it is requested that the messages be copied as they are and that copies of the messages in code be returned as outlined above. This additional request is made at this time for the reason that the Bureau may be in a position at a later date to decode such messages and furnish plain language text to this office. At such time the coded copies returned to this office will be destroyed and the plain language messages inserted numerically in our message file. In this way we will be able to examine a complete file of these messages over a long period of time and when considered with other information already available, develop a more accurate picture of the espionage activities, if any exist, with regard to these persons in this Field Division.

If any plain language messages in the English language are included in the enclosures, it is requested this office simply be supplied with two copies numbered to conform with the enclosures.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage in this country, in supplying various Field Offices with investigative material, and possibly in connection with certain other activities.

Re: ^D SWISS ACTIVITIES

PERSONAL AND CONFIDENTIAL

Dear Sir: Attention: Assistant Director S. J. Tracy

Enclosed are telegraphic messages numbered 18 to - inclusive, some of which are in plain language and some in code, which are to and/or from the Swiss Consulate in San Francisco.

With regard to those in plain language, it is requested that this office be furnished with two copies on onion skin paper of complete translations and that a separate sheet be used for each message if practicable. It will be noted that they are numbered chronologically. It is requested that the translations be numbered to conform with the message enclosed herewith.

With regard to those in code, it is requested that the Bureau attempt to furnish decodes to this office in the same manner as outlined above with regard to those in plain language. In addition, in the event it is found such messages cannot be decoded, it is requested that the messages be copied as they are and that copies of the messages in code be returned as outlined above. This additional request is made at this time for the reason that the Bureau may be in a position at a later date to decode such messages and furnish plain language text to this office. At such time the coded copies returned to this office will be destroyed and the plain language messages inserted numerically in our message file. In this way we will be able to examine a complete file of these messages over a long period of time and when considered with other information already available, develop a more accurate picture of the espionage activities, if any exist, with regard to these persons in this Field Division.

If any plain language messages in the English language are included in the enclosures, it is requested this office simply be supplied with two copies numbered to conform with the enclosures. 15

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage in this country, in supplying various Field Offices with investigative material, and possibly in connection with certain other activities.

Bureau File 65-42389

Dear Sir:

The intercepts which are listed on an attached sheet were received in this office during the period from May 5 to July 6, 1942, for appropriate examination. Intercept 395 was received from the Bureau and the remaining intercepts were received from the Portland Monitoring Station of the Federal Communications Commission.

Intercepts 348, 349, 350 and 353 are copies of transmissions from radio station JUM in Tokyo to DGY in Nauen and NBH in Geneva on a frequency of 13705 Kcs. These intercepts contain service traffic, French, German, and English plain text messages. The English plain text messages are from Gorge in Tokyo and deal with the affairs of different individuals, and also with the repatriation of Americans in Japan. Intercept 349 also contains the beginning of a collation copy of a 5 digit message to Auswaertig, Berlin from Tokyo.

Intercepts 325, 327, 351, 352 and 354 are transmissions from JAJ in Osaka to radio stations HSE-3, HSP and HSE, all of which are in Bangkok. These transmissions were on JAJ's assigned frequency of 15840 Kcs. These intercepts contain service traffic, English and German plain text messages. The English messages are from Gorge in Tokyo to the Swiss Consulate in Bangkok, regarding the arrangements for the evacuation of British and American Nationals in Thailand.

Intercept 326 is a transmission from JNS-4 in Osaka to FZR-6 in Saigon on a frequency of 14970 Kcs. This intercept contains two fragmentary English plain text messages; one concerns British Nationals, probably in Saigon and the other is to the Swiss Consulate in Saigon in connection with the arrangements for the travel of individuals, probably the evacuation of British and American Nationals.

Re: Swiss Diplomatic Group

Intercept 395 is a transmission from radio station JNP on a frequency of 13740 Kcs. This traffic was directed to IQA in Rome and consists of a partial message, the address of which is missing, in 5 letter groups of Swiss diplomatic code.

Resumes and translations of foreign language messages contained in these intercepts are attached hereto.

Intercept 395 is being transmitted herewith for further examination in the laboratory, but the remaining intercepts, which consist of only plain text material, are being retained in this office. It is requested that a photostatic copy of intercept 395 be furnished this office.

NO. 148.

Mr. Section Head:

I have the honor to inform you that Dr. H. Mezger in Dr. Ciba, Society for the Chemical Industry in Basel, (who is) at the moment in New York, has requested me to forward the attached report to his firm through your mediation, to which request I have acceded by way of exception. He hesitated, of course, to give it openly, since certain, not exactly favorable notations concerning the activity of the Vice-consul Erwin Jost, administrator of the Swiss Consulate General in Mexico, are contained therein. I should like to call your attention to various statements both in the English and German text.

Mr. Mezger advised me further upon my inquiry that he did not have a good impression of your representative in that place. He suspects that the amounts collected for the Swiss Club are not being entirely devoted to their purpose. In strict confidence, Dr. Mezger related to me that conjectures suggest that Mr. Jost is closely connected with German interests; it is even not impossible that he is receiving money from these (interests). He is being supported, to be sure, by certain circles of the Swiss colony in Mexico, especially by Dr. von Moor, whose sympathies for Germany are common knowledge.

I give you these statements as they were related to me by Dr. Mezger, without possessing in any way any proof of their correctness. I should like, moreover, to stress expressly that Dr. Mezger did not complain about Mr. Jost, and on the whole hesitated very much to entrust the letter to the courier, if you should receive knowledge of his statements with regard to Mr. Jost. I believe, however, that in spite of everything I must inform you of the above conversation.

Accept, Mr. Section Head, the assurance of my highest esteem,

Consul General

Re: SWISS DIPLOMATIC GROUP.

Dear Sir:

Reference is made to your letter of June 4, 1942 with which you furnished the Laboratory with intercept number 164 received from the Portland Monitoring Station of the Federal Communications Commission on April 24, 1942.

This intercept, bearing the call letters of radio station JUM in Tokyo operating on its assigned frequency of 13,705 Kilocycles, contains two messages, one addressed to "Politique Interets Berne", the other to "Politique Berne". The former cable address refers to the Division of Foreign Interests in Berne, the latter to the Division of Foreign Affairs in Berne. Both of these messages bear the signature "Gorge". In addition to these two messages there is also a fragment of a message of indefinite length also bearing the signature "Gorge".

Decodes were effected for these messages by means of code books now available in the Technical Laboratory. Translations of these decodes are being furnished you at this time; they are attached hereto.

Your letter also made reference to intercept number 183 received from the same source. You are requested to forward a copy of this intercept to the Laboratory. You are likewise advised to submit all intercepts received in connection with this group as soon as possible.

TRANSLATION OF MESSAGE SENT TO POLITIQUER BERNE FROM GORGE, TOKIO,
ON APRIL 23, 1942.

CAN I INFER FROM YOUR 93 THAT MY REPORTS ON MANCHUKUO OCTOBER 3, NOVEMBER 8, 1940 AND MAY 29, 1941 ** ** WHICH ALREADY DEAL WITH THE QUESTIONS BROUGHT UP ABOUT SOJOURN. FOR A CONSULAR AGENCY IN MANCHUKUO THE ONLY PRACTICAL SOLUTION WOULD BE TO APPOINT BORIS BRYNER AS CONSULAR AGENT AT KHARBINE WHERE HE IS LIVING. BORIS COULD REMAIN THE DAIREN AGENT BUT IT WOULD PERHAPS BE PREFERABLE TO REPLACE HIM BY HIS BROTHER FELIX WHO IS AT PRESENT MY DELEGATE FOR FOREIGN INTERESTS, FOR BORIS IS HARDLY EVER AT DAIREN. IF KHARBINE IS ESTABLISHED, IT REMAINS TO BE CONSIDERED IF WE SHOULD CLOSE THE DAIREN AGENCY LATER. BEFORE DECIDING ANYTHING I ADVISE YOU TO AUTHORIZE ME TO SOUND OUT THE JAPANESE GOVERNMENT, INDICATING TO ME YOUR VIEWS ON THE MANCHUKUO QUESTION. THE QUESTION OF THE KHARBINE AGENCY WILL AT ANY RATE BE MORE DIFFICULT TO DECIDE NOW THAN AFTER I HAVE SUBMITTED SUGGESTIONS TO YOU. IT IS NOT IMPOSSIBLE THAT A VICTORIOUS JAPAN REQUIRE A PRELIMINARY EXAMINATION IN MANCHUKUO. JAPAN IS CREATING DIFFICULTIES FOR THE ESTABLISHMENT OF CONSULAR REPRESENTATION DURING THE WAR, AND GAIMUSHO IS SCEPTICAL ABOUT THE POSSIBILITY OF THE CREATION OF A CONSULAR AGENCY IN YOKOHAMA, WHICH WOULD HOWEVER HELP ME IMMENSELY IN VIEW OF THE DIFFICULTIES BROUGHT TO BEAR ON FOREIGNERS ABOUT LEAVING THEIR RESIDENCES AND EVEN TELEPHONING.

Note: KHARBINE is undoubtedly another spelling for HARBIN.

RE YOUR 355 I AM MAKING NEW ATTEMPTS TO REGULATE THE QUESTION OF AID

BATAVIA. JAPAN DOES NOT SEEM OPPOSED TO THE SENDING OF FUNDS TO
PHILIPPINES, BUT THE QUESTION OF KNOWING TO WHOM I COULD SEND THE
MONEY IS NOT YET ** EMBARKATION. I DISCUSSED THE MAIN QUESTION TODAY

WITH GA **
QUESTION IS PREMATURE. FOR BATAVIA THE QUESTION WOULD BE EASILY REGULATED
IF I WERE NOT STILL WITHOUT NEWS FROM MICHELI. I WILL TRY TO OBTAIN SOME.

Re: Swiss Diplomatic Messages

In connection with the above-entitled case, during the period from September 23, 1942 to October 15, 1942, the Technical Laboratory received a total of 161 messages. One hundred and fifty-seven of these messages were furnished by the Office of Naval Censorship in New York and four messages were furnished by the Federal Communications Commission. These messages were exchanged between the various branches and Diplomatic Representatives of the Swiss Government.

Twelve of these messages have been decoded and translations of their decodes are being forwarded at this time. One other message, which was not in code but in plain text, is being reported on at this time. A copy of this message is also being furnished your office herewith.

In connection with this case, it is to be noted that the messages for which solutions can be effected at this time constitute but a small percentage of the messages being received. Until further information and material are furnished in connection with the systems employed for encoding these last mentioned messages, no decodes can be obtained.

Copies of these messages are being retained in the laboratory's code and cipher file, and any duplicate copies on hand will be sent to the Bureau's files at a later date.

WITH OUR 515 TO SWISS INT OF THE 15TH OF JUNE, SUPPORTED BY GERMAN RELIEF, WE GAVE AUTHORIZATION FOR THE ASSISTANCE OF THOSE GERMAN CITIZENS WHO HAVE PROVIDED FOR THE ESTABLISHMENT OF A HOME, INCLUDING THE FAMILIES OF THE INTERNED, WHOSE HOME ESTABLISHING IS IMMINENT. ASIDE FROM THAT, ALL INTERNED SEAMEN AND ALL NEEDY PEOPLE INTERNED, ARE TO BE FURNISHED POCKET MONEY, ACCORDING TO OUR 417 TO SWISS INT. CONCERNING THAT, WE RECEIVED NO GENERAL AUTHORIZATION FOR THE UNDERTAKING OF ASSISTANCE BUT EVEN MORE THE INSTRUCTION (OUR 893 TO SWISS INT) TO STOP THE PAYMENT OF THE ALLOWANCES TO GERMAN INTERNEES EXCEPT IN SPECIAL CASES, AND CONCERNING THOSE, A SPECIAL REPORT IS TO BE SUBMITTED. FROM THE HAND BOOK CONCERNING POLICIES AND PROCEDURES GOVERNING THE ADMINISTRATION OF SERVICES AND ASSISTANCE TO ENEMY ALIENS AFFECTED BY GOVERNMENTAL ACTION, WHICH WAS ENCLOSED IN THE MESSAGE FROM SWISS INT DATED AUGUST 31, WE LEARNED WITH SURPRISE, THE EVIDENT METHODS OF SUPPORT EXISTING FOR GERMAN CITIZENS IN AMERICA, PROVIDED FOR BY GERMAN MEANS, IS CONSIDERABLY MORE COMPLETE, THAN THAT PERMITTED BY GERMAN GOVERNMENT'S AUTHORIZATION. THE PAMPHLET OF INSTRUCTIONS OF THE 16TH FROM YOUR LEGATION TO THE SWISS CONSULATE WHICH IS ATTACHED TO THE HANDBOOK, DOES NOT APPEAR TO BE COVERED BY OUR INSTRUCTIONS, SINCE IT STATES THAT SWISS CONSULATES ARE TO AID ALL NEEDY GERMANS IN AMERICA EXCEPT FOR JEWS AND IMMIGRANTS. WE REQUEST A DETAILED CLARIFYING REPORT CONCERNING THE REGULATIONS GOVERNING THE NATURE OF THE AID TO GERMAN CITIZENS, AND CONCERNING THE RELATION OF THIS REGULATION TO OUR LIMIT TO THE INSTRUCTIONS. THE GERMAN GOVERNMENT STANDS AS BEFORE ON THE STANDPOINT THAT THE CUSTODY STATE IS OBLIGATED TO AID THE CITIZENS OF THE ENEMY COUNTRY. THIS IS ALSO HANDLED IN A SIMILAR MANNER IN THE BRITISH EMPIRE. SHOULD THE AMERICAN GOVERNMENT REFUSE IN SPITE OF THE OBSERVATIONS CONTAINED IN OUR 515, AND REMAIN FIRM TO THE STANDPOINT IN TELEGRAM 3356 FROM SWISS INT, WE REQUEST AN OFFICIAL REPORT. FOR THE PRESENT, BE SURE THAT THE AID TO GERMAN CITIZENS REMAINS WITHIN THE SCOPE OF OUR INSTRUCTIONS.

Recently the New York Field Division forwarded to the Laboratory material for examination in connection with Swiss Diplomatic messages. This material consisted of a number of codes, tables and ciphers together with instructions for their proper use, in addition to other material of a miscellaneous nature of interest to the Cryptanalytic Section.

The material submitted was examined in the light of cables currently being exchanged among the various branches and consular representatives of the Swiss Government. Whereupon, it was found that some of the messages can be solved with the aid of this material. However, those which can be solved constitute only a small percentage of those being transmitted at this time.

Fortunately, among the material transmitted to the Laboratory by the New York Office was a copy of a piece of diplomatic correspondence with an enclosure listing the codes and ciphers on hand or in use at the numerous consular offices of the Swiss Government. Consequently, it was possible to determine the codes and ciphers required to facilitate the handling and eventual solution of the vast majority of Swiss Diplomatic messages. Attached hereto is a copy of

the correspondence in question for the information of the National Defense Division in the event that it decides to attempt to obtain copies of these ciphers and codes not presently on hand in the Laboratory. They are Ciphers B, C and M, and Codes E and F. Cipher M, the ministerial cipher, is believed to be used rather extensively at this time.

Respectfully,

ATTENTION: TECHNICAL LABORATORY Re: MISCELLANEOUS RADIO INTERCEPTS
SWISS DIPLOMATIC GROUP

Dear Sir:

I wish to advise you that the Intercepts listed below were received from the Portland Monitoring Station of the Federal Communications Commission on April 24, 1942:

	<u>MONITOR</u>	<u>DATE</u>	<u>FREQ. IN KCS.</u>
#164	Portland	4-23-42	13705
#183	Portland	4-23-42	13705

Intercepts 164 and 183 are copies of traffic from Radio Station JUM in Tokyo operating on his assigned frequency of 13705 Kcs. Intercept 164 contains the usual service traffic associated with commercial circuits and several messages in five letter Swiss Diplomatic Code. Intercept 183 on the other hand consists entirely of two plain text messages, one in French, the other in English. Both are from GORGE and are addressed to the Foreign Office in Berne. The French message concerns provisions for the care of internees, whereas the English message contains a number of communications from American internees directed to friends and relatives in America.

Intercept 183 is being retained in this office. Intercept 164 is being transmitted herewith for further Laboratory examination.

It is requested that Portland be furnished a photostatic copy of 164.

Very truly yours,
